

MATERIAL SAFETY DATA SHEET

IDENTIFICATION

Product Name: SANIFOAM

Trade Name:

Other Names:

Manufacturers Code:

U.N. Number:

Dangerous Good Class/

& Subsidiary Risk:

Hazchem Code:

Poison Schedule:

Use: Sanitizing Cleaner

Physical Description/Properties

Appearance:	Clear, pale yellow liquid
Boiling Point (°C)	100°C
Vapour Pressure (mm Hg@25°C)	24
Per Cent Volatiles:	83
Specific Gravity @ 20°C	1.09
Flash Point:	Nil
Flammability Limits (%):	Nil
Auto ignition Temperature (°C)	Nil
Plus other properties if applicable	

Ingredients

Chemical Entity

(Include all

hazardous Ingredients)

Sodium Hydroxide

Sodium Hypochlorite

Surfactants/Foaming Boosters/Water

Proportion

(High 60%)

(Medium 10% - 60%)

(Low 10%)

HEALTH HAZARD INFORMATION

Health Effects

Swallowed:	Soreness and redness of mouth and throat. Nausea, vomiting and stomach pain may occur
Eyes:	Pain and redness. Corneal burns may occur.
Skin:	Redness and irritation. Possible burns
Inhaled:	Shortness of breath, coughing and sore throat

This information is, to the best of our knowledge, true and accurate, but any recommendations or suggestions which may be made are without guarantee, since the conditions of use are beyond our control. Furthermore, nothing contained herein shall be construed as a recommendation to use any product in conflict with existing patents covering any material or its use.

First Aid

- Swallowed: DO NOT induce vomiting. Give two glasses of water and obtain medical attention
- Eyes: Immediately flush eye(s) with running water for 15 minutes and obtain medical attention.
- Skin: Remove contaminated clothing and flush affected area with water. Obtain medical attention if contact is extensive or prolonged.
- Inhaled: Unlikely route unless atomised. Move to fresh air and obtain medical attention if shortness of breath develops.

PRECAUTIONS FOR USE

- Advice to Doctor: Full details available from National Poison (03) 474-0999
- Exposure Limits: Contains 3% max. Available chlorine
TLV TWA for chlorine: 0.5ppm
- Ventilation: Poorly ventilated areas (e.g. tanks) may require self-contained, positive pressure breathing apparatus.
- Personal Protection: PVC/rubber gloves, splash goggles, gumboots.
- Flammability: Not flammable. If involved in fire chlorine fumes will be evolved.

SAFE HANDLING INFORMATION

- Storage and Transport: Store in cool, dry area. Corrosive Class 8 and Toxic Substances, 4th Schedule conditions apply
- Spills and Disposal: Contain spill and absorb with inert material then place in clean drums for disposal by approved methods
- Fire and Explosion Hazard: Will not support combustion but if involved in a fire, decomposition may give off chlorine. Fire fighters may consider breathing equipment.
