

TECHNICAL DATA SHEET
SANIFOAM

DESCRIPTION:

Sanifoam is a liquid, chlorinated, alkaline detergent. It is high foaming and ideally suited for application through a foaming gun, high-pressure spray or soaking. This combination of detergents, alkalinity and chlorine provide efficient cleaning and sanitizing of a wide range of soils, particularly within the food-processing sector.

PROPERTIES:

<i>Appearance:</i>	Clear pale yellow viscous liquid.
<i>Specific gravity @ 20°C:</i>	1.09
P11 @ 1%:	12.0
Free avail chlorine:	3% at date of manufacture
MAF Approval:	C31 Rating.

APPLICATIONS:

For the removal of fats, vegetable oils, protein, blood and stains, and to provide sanitized and deodorised surfaces in:-

Abattoirs	Fishing Boats
Fish Processors	Food Containers
Poultry Plants	Cow Shades
Canneries	Butcheries
Dairy Factories	Restaurants

INSTRUCTIONS:

Foam or Pressure Application: Use at a rate of 1-3% with water (preferably hot, 60-70°C). Allow to dwell for 10 to 20 minutes then rinse off thoroughly with potable water.

Soaking:- Make up a 10-20% solution with warm water (40-60°C) and soak utensils for 80 minutes or longer if stain removal is required. Rinse article thoroughly with portable water before reuse.

PRECAUTIONS:

Use with rubber/PVC gloves, splash goggles and gumboots – refer to Material Safety Data Sheet for more details.

Do not mix with acids or Quaternary Ammonium disinfectants.

Avoid prolonged contact with soft metals and poor quality paints.
