

### Storage Statement

- Store in well ventilated place keep cool

### Disposal:

- Dispose of contents and container to appropriate waste site or reclaimer in accordance with local and national regulations.

---

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

Ingredient	CAS #	Concentration %
Mono Ethylene Glycol	107-21-1	>80
Corrosion inhibitor		>12
Dye		0.1
Water	7732-18-5	Balance

---

### 4. FIRST AID MEASURES

---

#### Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting unless patient has induced high dosage. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical aid immediately.

#### Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed

#### Skin Contact:

Wash with plenty of soap and flowing water for at least 15 minutes while removing contaminated clothing. Wash clothing before reuse.

#### Inhalation:

If ill- effects occur, move victim to fresh air. If ill-effects persist, consult a doctor.

---

### 5. FIRE FIGHTING MEASURE

---

#### Extinguishing Media:

Use dry chemical powder, foam, polymer foam, and water spray or fog type extinguishers. Water may be ineffective on fire. However, water spray may be used to extinguish fires and to absorb heat. Keep containers cool and protect exposed material. If a leak or spill has not ignited, water spray may be used to flush spills away from exposures.

#### Hazards from combustion products:

Not combustible. However, following evaporation of aqueous component, residual material can burn if ignited. While burning, it will emit toxic fumes including carbon monoxide and carbon dioxide.

#### Precautions for fire fighters and special protective equipment:

Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion as well as structural fire fighter's uniform.

#### Hazchem code:

None Assigned

---

### 6. ACCIDENTAL RELEASE MEASURES

---

#### Emergency Precautions:

Personnel involved in the clean up should wear full protective clothing. Evacuate all unnecessary personnel. Increase ventilation. Avoid walking through spilled product as it may be slippery. Stop leak if safe to do so. Do not let product reach drain or waterways; advise the Environmental Protection Authority or your local Waste Management. Use clean, non-sparking tools and equipment.

#### Methods and Materials for Containment and Clean Up:

Soak up spilled product using absorbent, non-combustible material such as sand or soil. Avoid using sawdust or cellulose. When saturated, collect material into suitable, labelled, dry, sealable containers and hold for safe disposal. Once pick-up is complete, flush spill site with plenty of water to eliminate any residue. Hold

contaminated water for treatment/disposal.

---

## 7. HANDLING AND STORAGE

---

### Handling:

Wash thoroughly after handling. Avoid contact with eyes. Keep container tightly closed. Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Do not dispose of material to sewers or waterways.

### Storage:

Store in a tightly closed container. Keep from contact with oxidizing agents. Store in a cool dry well-ventilated area away from any incompatible substance (if applicable). Keep container closed at all times and check regularly for leaks

---

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

---

### Exposure Standards:

The Occupational Safety and Health Service, NZ Department of Labour have set no Tolerable Exposure Limit (TEL) Workplace Exposure Standards (WES) for this substance.

### Biological limit values:

None established

### Engineering Controls:

The use of local exhaust ventilation is recommended to control process emissions near the source. Provide mechanical ventilation of confined spaces.

### PERSONAL PROTECTIVE EQUIPMENT:

#### Respiratory Protection:

Where concentration in air may exceed the limits described in the National Exposure Standards, it is recommended to use a half face filter mask to protect from overexposure by inhalation. A type "A" filter material is considered suitable for this product.

#### Eye Protection:

Always use safety glasses or a face shield when handling this product.

#### Skin/Body Protection:

Always wear long sleeves and long trousers or coveralls, enclosed footwear or safety boots and chemical resistant gloves when manufacturing this product.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

<b>Appearance:</b>	Fluorescent Green
<b>Physical State</b>	Liquid
<b>Odour:</b>	Odourless
<b>Boiling point:</b>	>250 deg
<b>Freezing Point</b>	<= 50 deg
<b>Solubility:</b>	Soluble in water
<b>Specific Gravity:</b>	1.12
<b>Flashpoint:</b>	Not Applicable
<b>Exposure Properties:</b>	Not Applicable
<b>pH:</b>	6.5-7.5
<b>Vapour Density</b>	Not Available
<b>Vapour pressure:</b>	Not Available
<b>% Volatilities</b>	Not Available

---

## 10. STABILITY AND REACTIVITY

---

### Chemical Stability

Stable at room temperature and pressure

### Conditions to avoid:

Direct sunlight, moisture

### Incompatible Materials:

Incompatible with oxidizing agents, acidic agents, and sources of ignition

### Hazardous decomposition:

Oxidising agents, mineral acids, halogenated organic compounds.

---

## 11. TOXICOLOGICAL INFORMATION

---

No adverse health effects expected if the product is handled in accordance with the safety data sheet.

Symptoms or effects that MAY arise if the product is mishandled and the overexposure occurs are:

### Acute Effects

#### Ingestion:

Small amounts of liquid aspirated into lungs during ingestion, or from vomiting. Ingestion of large amounts of this product will result in headaches, nausea, dizziness and tracheal burning.

#### Eye Contact:

This product is irritating and pain followed by swelling to the conjunctiva.

#### Skin Contact:

This product is irritating to skin.

#### Inhalation:

Irritating to respiratory tract. Exposure to high concentrations over an extended period of time may result in muscle weakness, tingling in hands and feet, blurred vision, headaches, nausea, loss of appetite, hallucinations and possible loss of consciousness.

---

## 12. ECOLOGICAL INFORMATION

---

### Persistence/ Degradability:

The substance is expected to be readily biodegradable.

### Mobility

No data available for this product

---

## 13. DISPOSAL CONSIDERATIONS

---

### Disposal Methods:

Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national and local authorities.

---

## 14. TRANSPORT INFORMATION

---

### Road and Rail Transport:

Not Classified as Dangerous Goods by the criteria of New Zealand Dangerous Goods Code for transport by road and rail

### Marine Transport:

Not Classified as Dangerous Goods by the criteria of international Maritime Dangerous Goods Code for transport by sea.

### Air Transport:

Not Classified as Dangerous Goods by the criteria of international Air Association Dangerous Goods Regulations for transport by air
